ABOUT ME

Information Technology student at the University of San Carlos with hands-on exposure to networking, cybersecurity fundamentals, and software development through coursework, certifications, and personal projects. Motivated to grow within the technology field and eager to take on new opportunities where I can apply my skills to support organizations and their IT needs.

EDUCATION

2010 – 2021 **Saint Louis College — Cebu**

2021 – 2023 **University of San Carlos — STEM Strand**

2023 – 2026 **University of San Carlos — BSIT**

CERTIFICATIONS & ACCREDITATIONS

2024 **CCNA: Introduction to Networks**
Cisco Networking Academy
Built a foundation in networking concepts, including IP addressing, subnetting, and basic network device configuration.

2024 **CCNA: Introduction to Cybersecurity**
Cisco Networking Academy
Studied core cybersecurity concepts such as threat identification, data protection, and common attack vectors.

2025 **Python and AWS Elective Course**
Zuitt Coding Bootcamp
Completed a certificate program covering Python fundamentals and AWS cloud services for practical application development.

2025 **CCNA: Switching, Routing, and Wireless Essentials**
Cisco Networking Academy
Gained hands-on experience configuring switches, routers, and wireless LANs in simulated enterprise environments.

2025 **Junior Cybersecurity Analyst Career Path**
Cisco Networking Academy
Trained in security monitoring, incident response fundamentals, and analyst-level threat assessment workflows.

PROJECTS

Gamify · *Java*
Built a game-based application for learning Java, turning core programming concepts into interactive gameplay mechanics.

Echoes of the Past · *GDScript*
Developed a mini RPG game, handling gameplay logic, scene design, and character interactions using the Godot engine.

Mini Spotify App · *TypeScript*
Built a music-player style application replicating core Spotify features such as playback controls and track browsing.

LARGA — BLM Taxi Digital System · *.NET MAUI / Firebase*
Currently developing an integrated taxi operations management system for BLM Taxi as a capstone project, covering system design, database integration, and cross-platform app development.

SKILLS

- Problem Solving
- Collaboration
- Analytical Thinking
- Basic Programming (C, Java)
- Teamwork
- Network Configuration
- Adaptability
- AI-Assisted Workflows
